
HOW TO REGISTER & ACTIVATE SONIC AI

Step-by-step guide · From signup to live copy trading

Total time: ~15 minutes · One-time setup

PHASE 1

01

SIGN UP FOR THE IB PORTAL

Steps 1–4 · Create your account, verify, and log in

01

Open Your Partner Link

Open the IB Portal sign-up page through your partner — either through their direct link, or by clicking through their AiTechCopy page.

Sign Up

Please complete the form using English alphabet characters only.

Register Now

Trading Forex & CFDs is risky

03

Verify Your Email

Check your inbox for an email titled "Welcome — Verify Your aitech Email." Click the **Verify Account** button. You'll be taken to a confirmation page — click **Continue to Login**.

If you don't see the email within 2 minutes, check your spam/promotions folder.

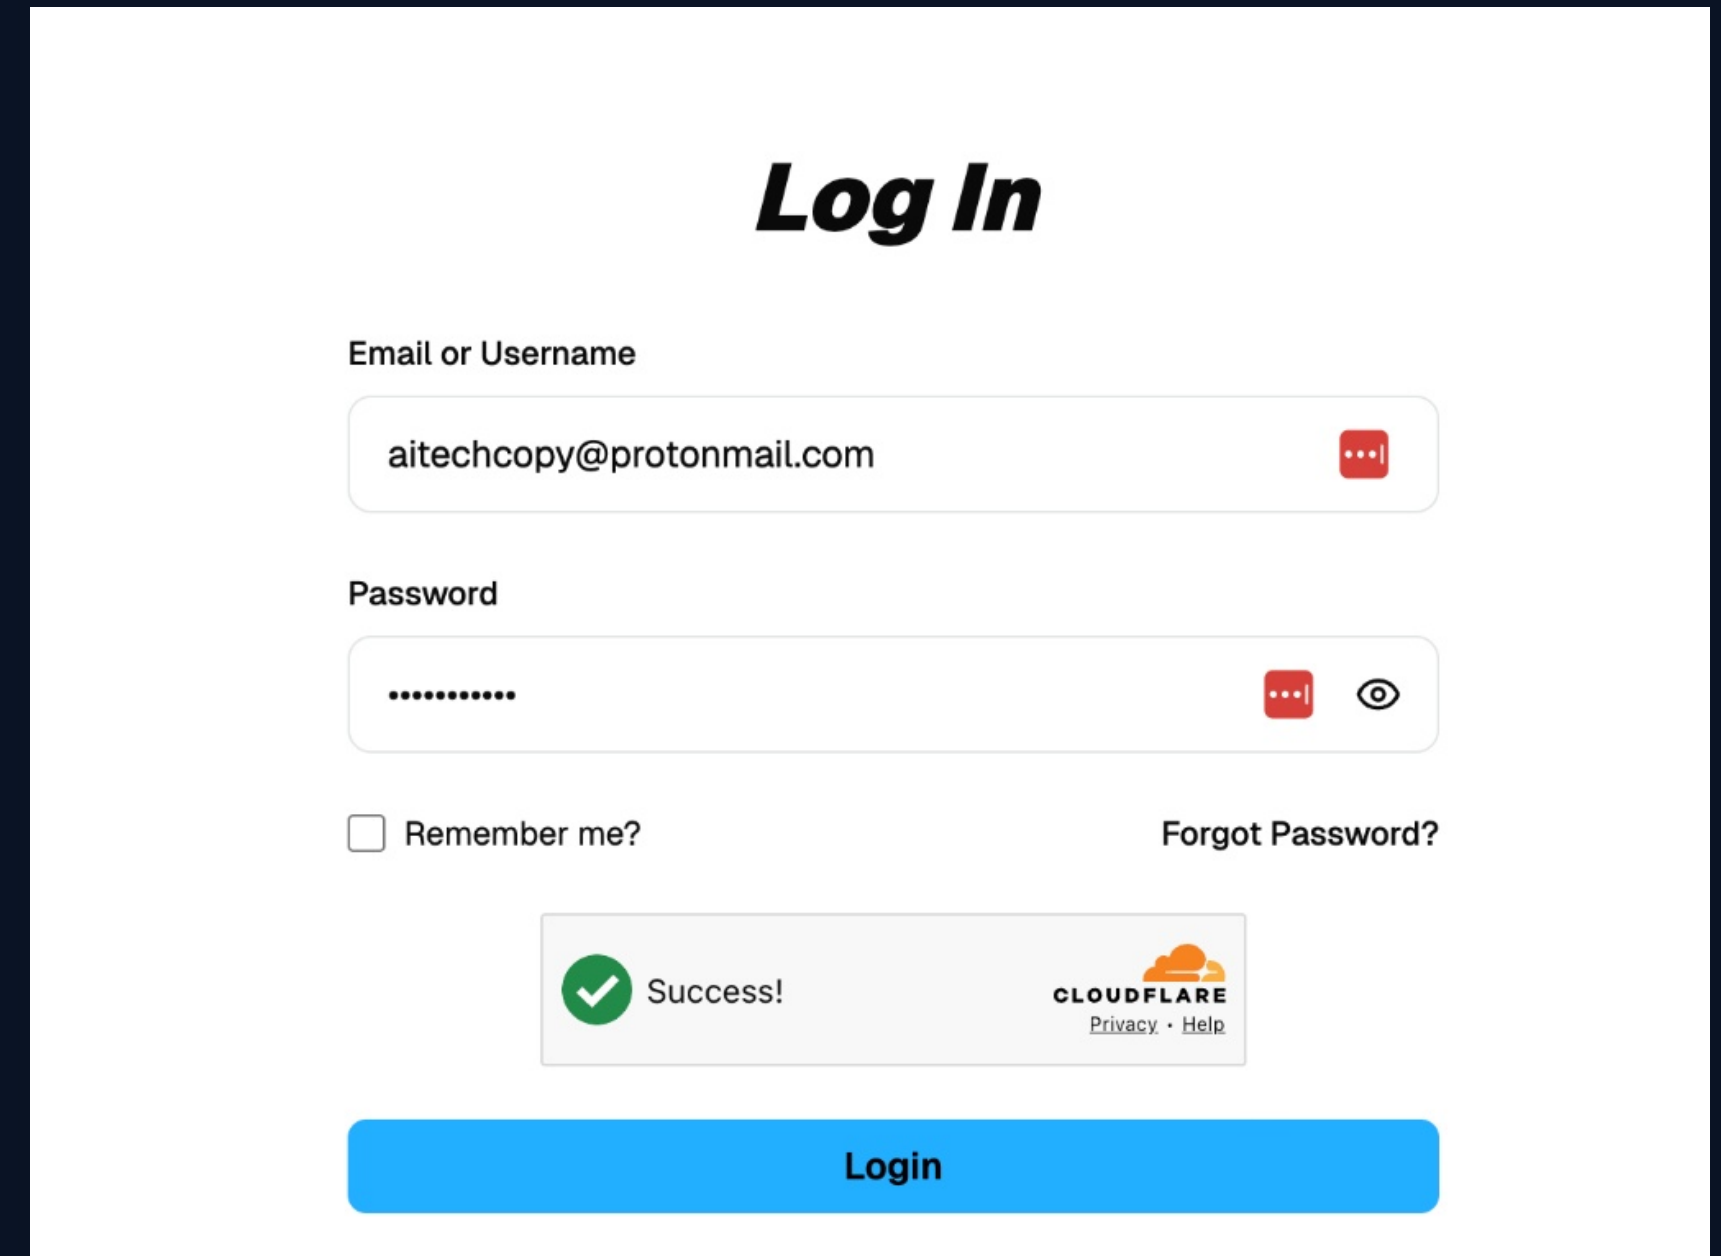

04

Log Into IB Portal

After clicking "Continue to Login," enter the email and password you just registered with, then click **Login** to access your IB Portal dashboard.

💡 **Tip:** Save your IB Portal login credentials somewhere safe — you'll use them every time you check commissions or share your partner link.

The screenshot shows the IB Portal login interface. At the top, the text "Log In" is displayed in a large, bold, black font. Below this, there are two input fields. The first field is labeled "Email or Username" and contains the text "aitechcopy@protonmail.com". The second field is labeled "Password" and contains a series of dots. To the right of the password field, there is a red eye icon. Below the input fields, there is a checkbox labeled "Remember me?" and a link labeled "Forgot Password?". At the bottom, there is a blue button labeled "Login". A success message "Success!" with a green checkmark icon is visible above the button. The Cloudflare logo and links for "Privacy" and "Help" are also present.

PHASE 2

02

SYNC TAG MARKETS BROKER

Steps 5–7 · Link your broker account through the IB Portal

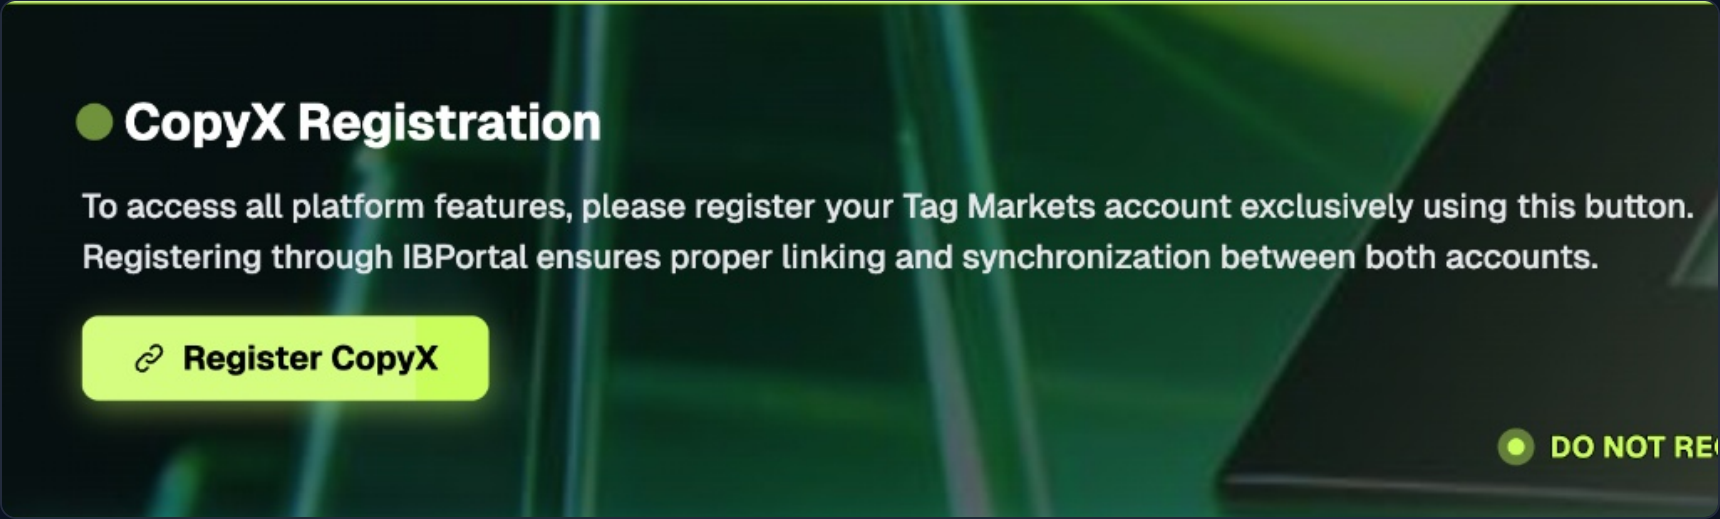

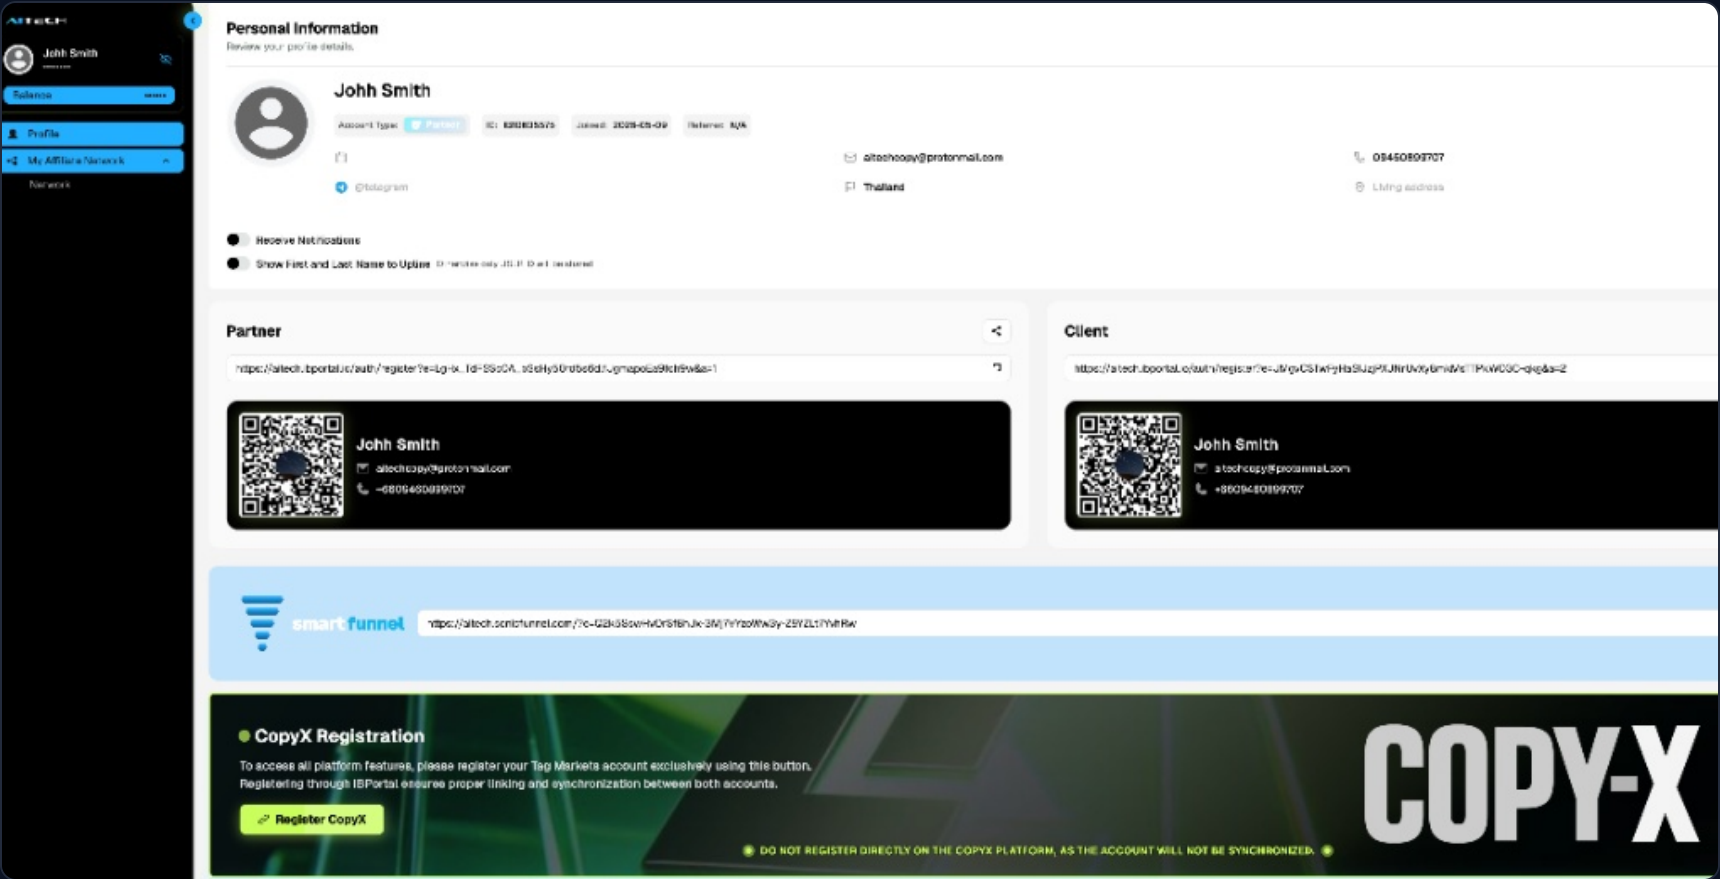

05

Register CopyX

On your IB Portal Profile page, **scroll down** to find the "CopyX Registration" card. Click the green **Register CopyX** button — this creates your linked TAG Markets account automatically.

DO NOT register directly on the CopyX or TAG Markets platforms — your account will not sync to the IB Portal and you'll lose access to commissions.

06

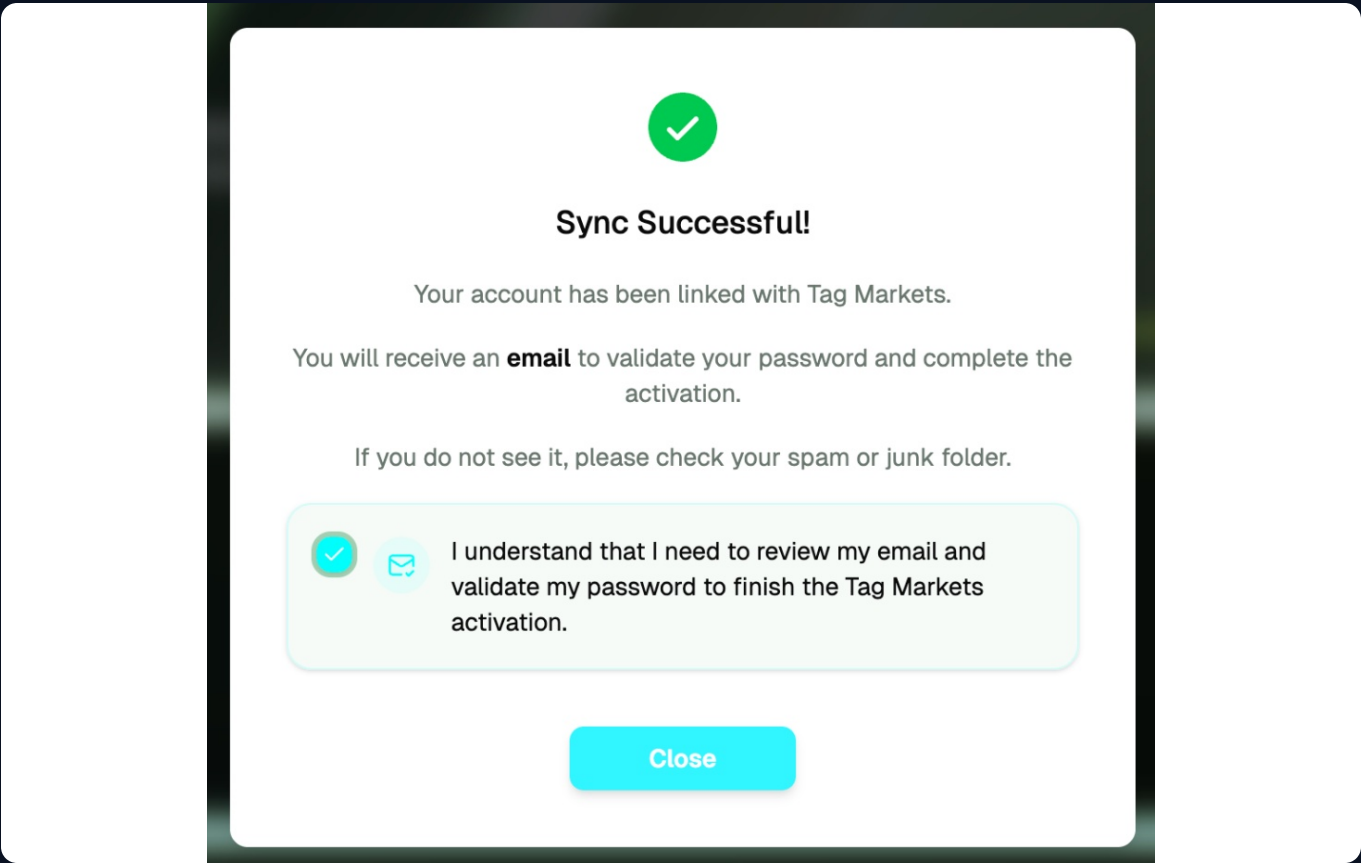

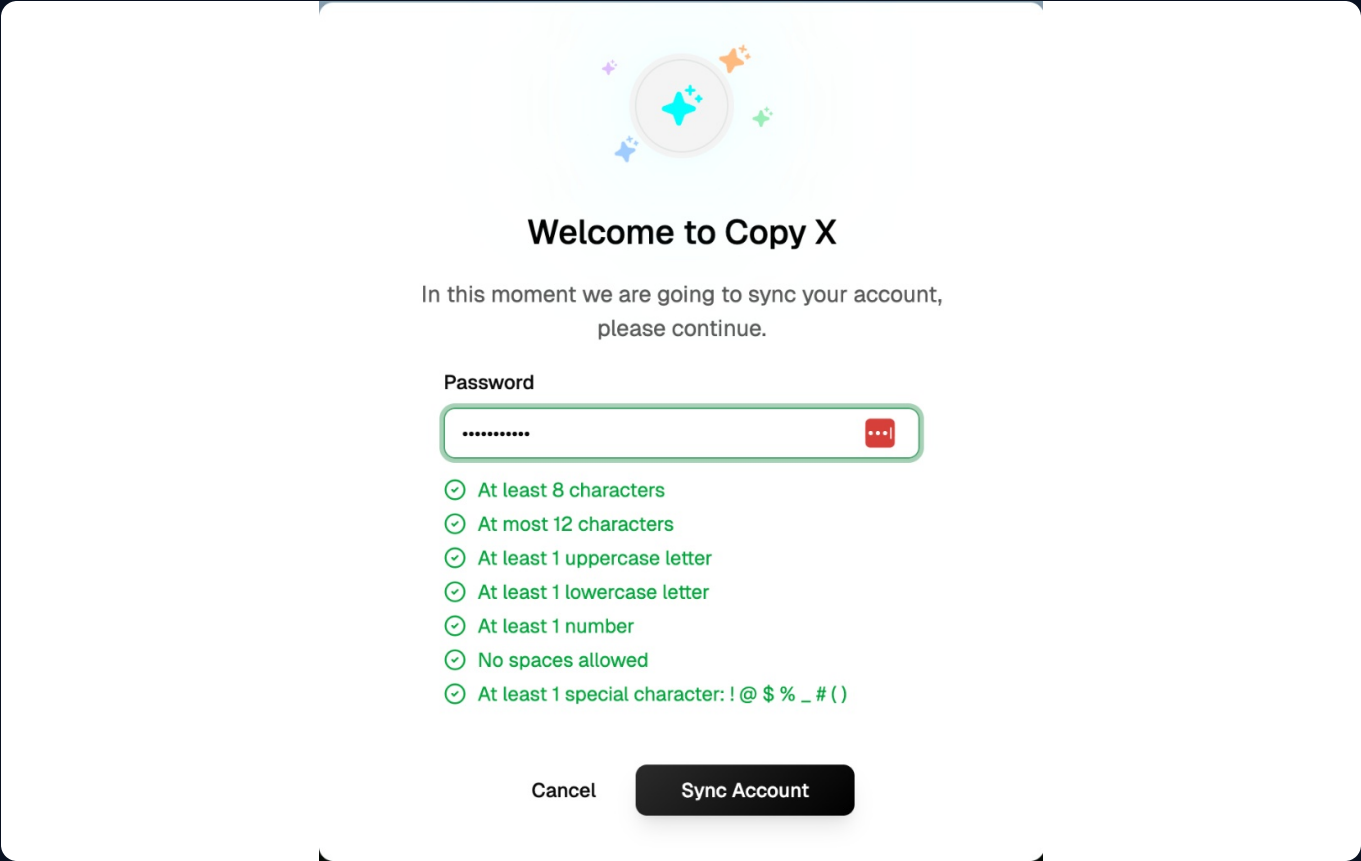

Sync Your Account

A "Welcome to Copy X" popup will appear. Create a password for your TAG Markets account, click **Sync Account**, then confirm the success message to complete the sync.

- 1. Enter a password meeting all requirements (you can use the same one as your IB Portal)
- 2. Click "Sync Account"
- 3. On the "Sync Successful!" popup, check the acknowledgment box — the Close button activates only after this
- 4. Click "Close" — your email will be the next step

Tip: Save this TAG Markets password — you'll use it to log directly into TAG Markets in the next step.

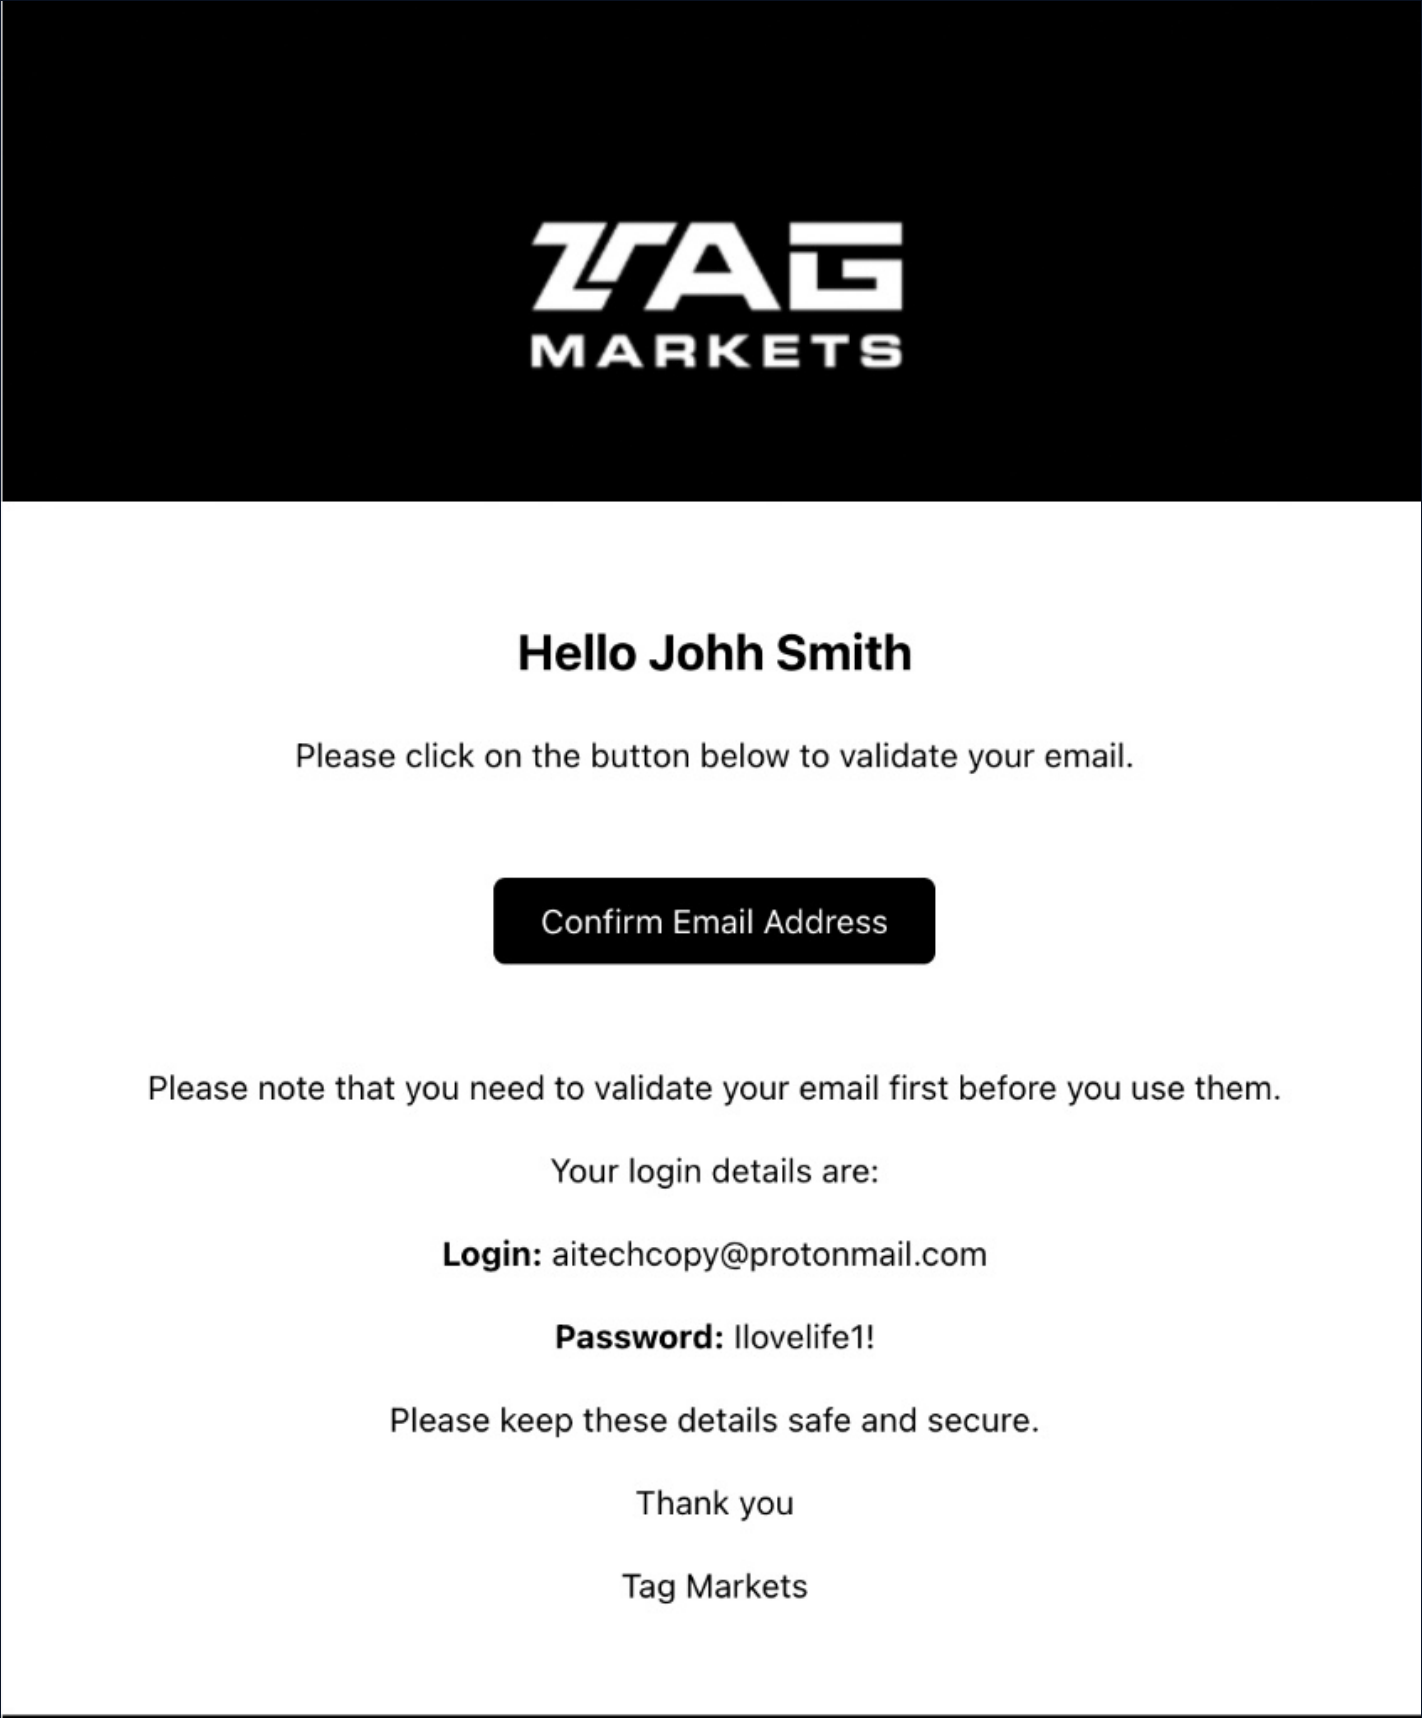

07

Confirm Your Email

Check your inbox for a TAG Markets email. Click **Confirm Email Address** — you'll be logged into TAG Markets automatically. Save the login credentials shown in the email for future logins.

- 💡 **Tip:** For future logins, you can either:
- Click **Login to CopyX** from your IB Portal Profile, OR
 - Go directly to **portal.tagmarkets.com/login**

PHASE 3

03

VERIFY IDENTITY & FUND ACCOUNT

Steps 8–11 · Complete KYC and make your first deposit

08

Verify Your Identity

At the top of your TAG Markets dashboard, click **upload documents** in the red KYC banner. Choose any **2 document types** from the dropdown and upload them to complete your verification.

ACCEPTED DOCUMENT TYPES (CHOOSE 2)

- ✓

Passport
- ✓

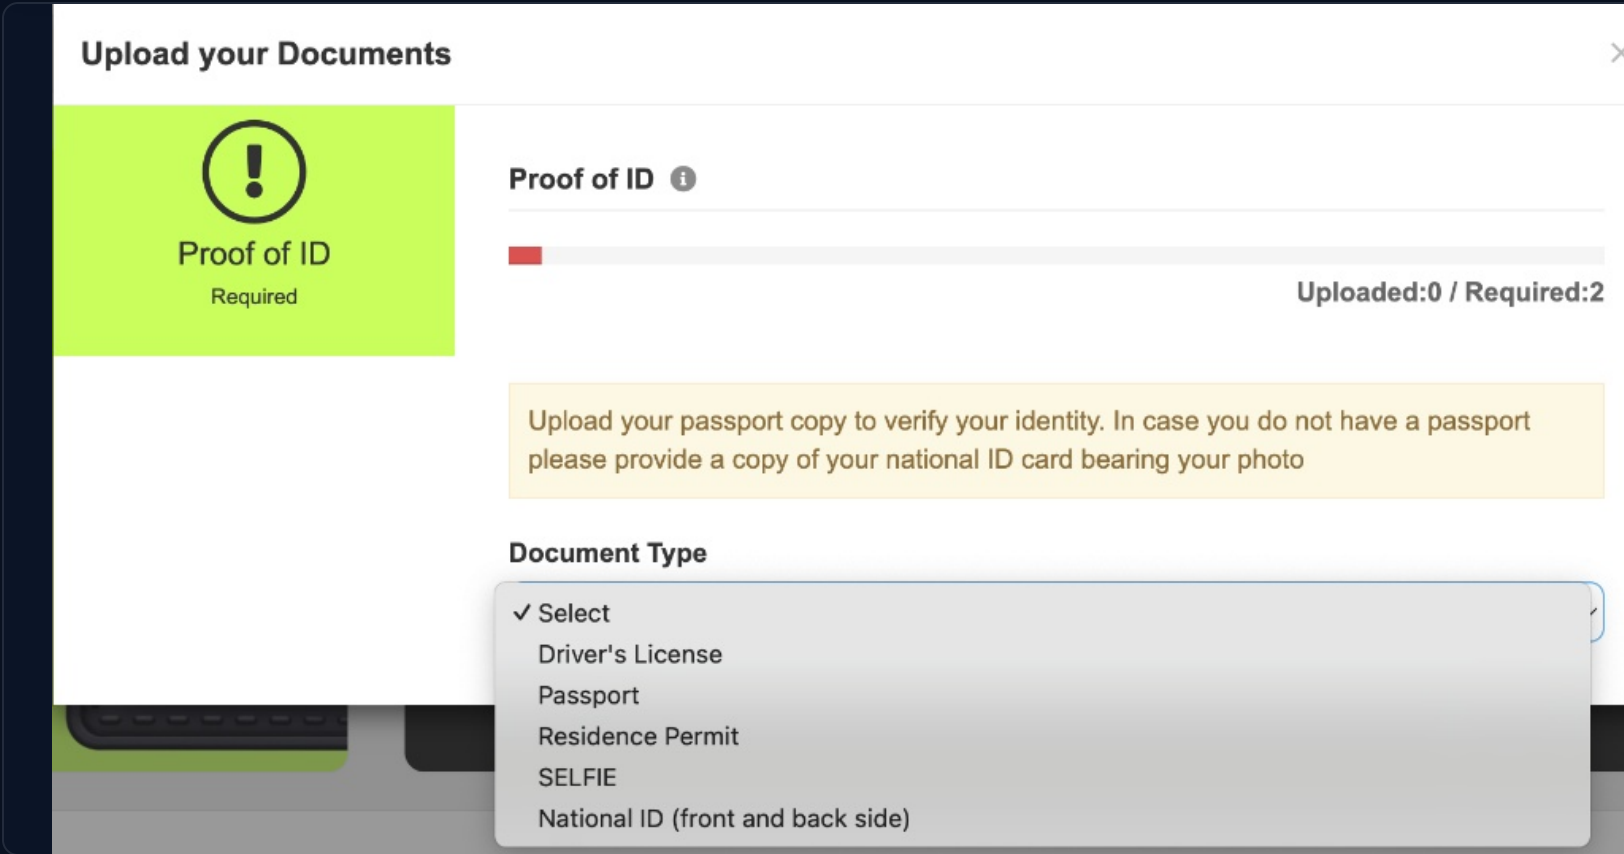

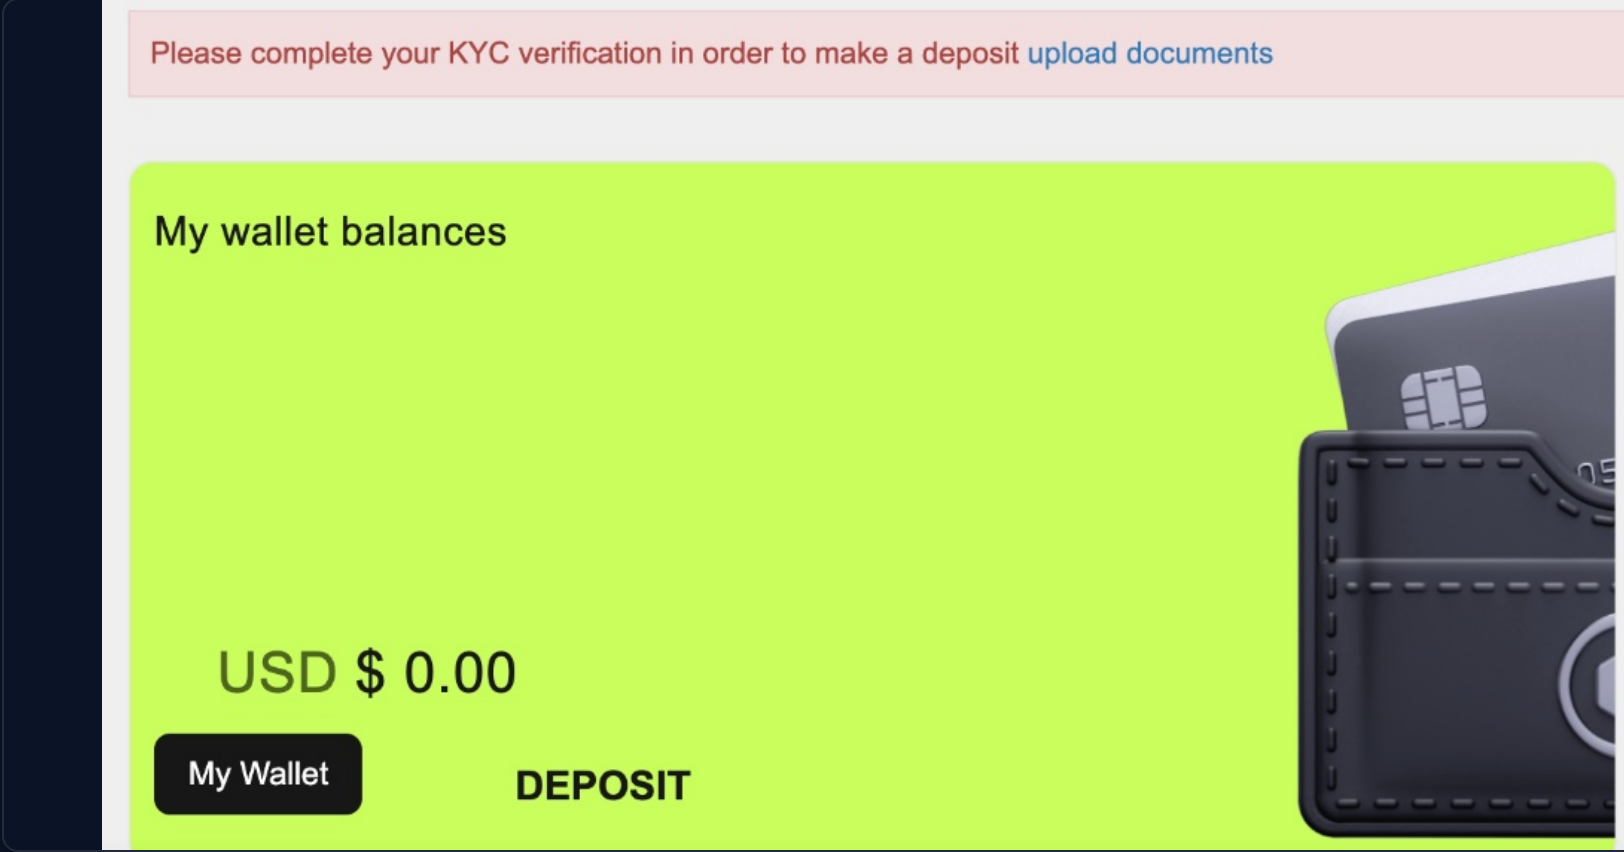

National ID (front + back)
- ✓

Driver's License
- ✓

Residence Permit
- ✓

Selfie

 Verification typically completes within a few minutes.

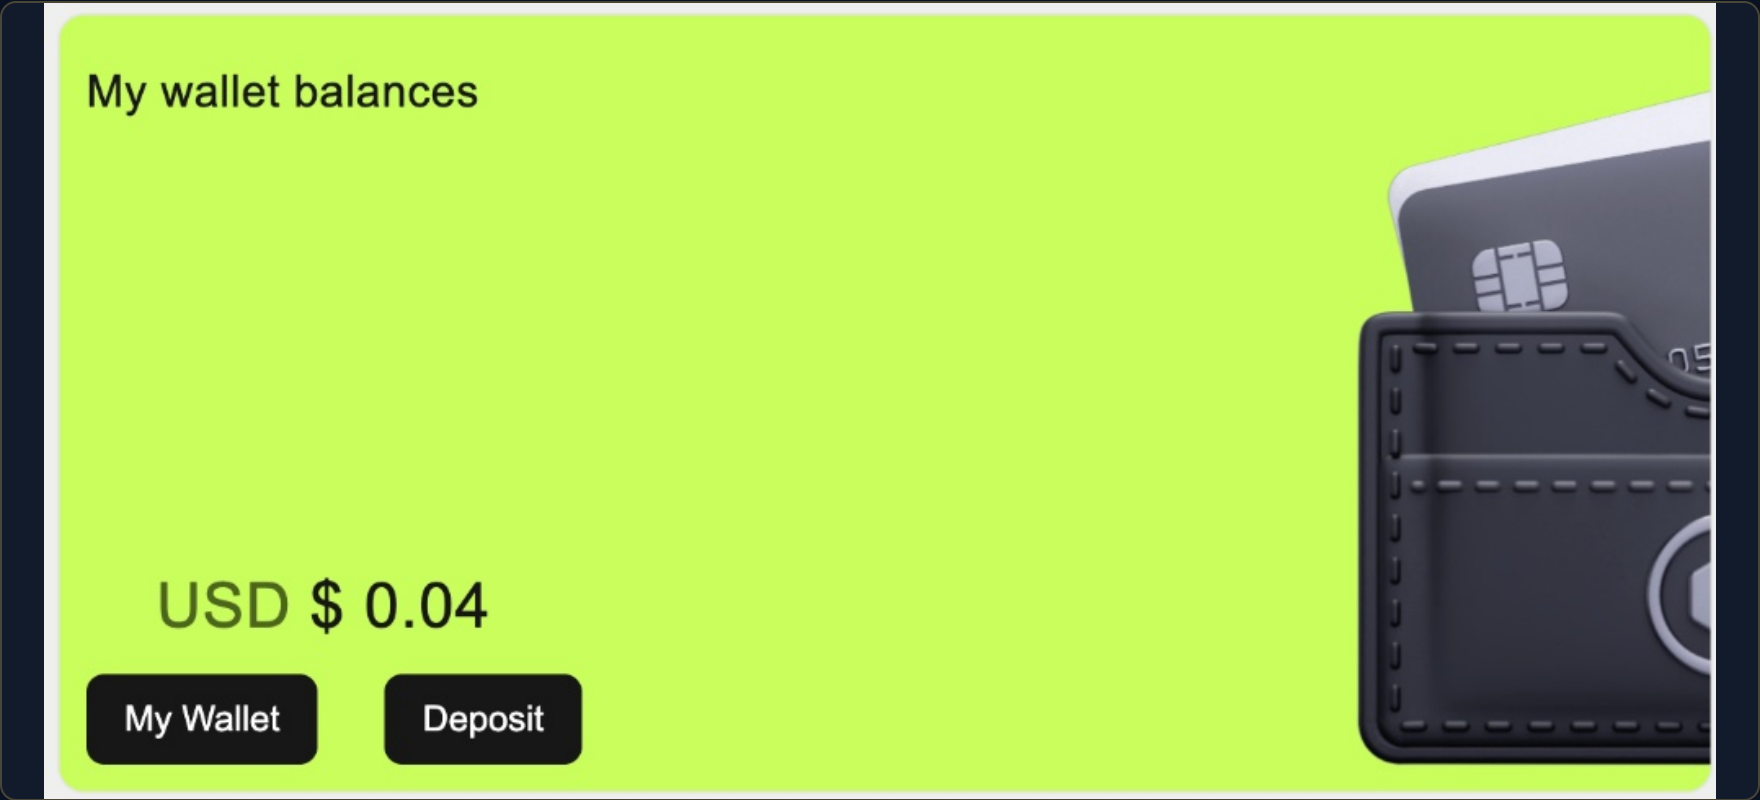

09

Make Your Deposit

From your TAG Markets dashboard, click **Deposit** on your wallet card. In the deposit modal, select **USD** as your currency, choose a preset amount or enter a custom value in **Other amount**, then click **Next >** to continue to the payment method selection.

 **Tip:** Pick a deposit size that matches your goals. You can always add more later — start small if you're testing the platform first.

\$1,000.00

Other amount

Other amount

\$10000

Choose your currency and select the desired amount to proceed

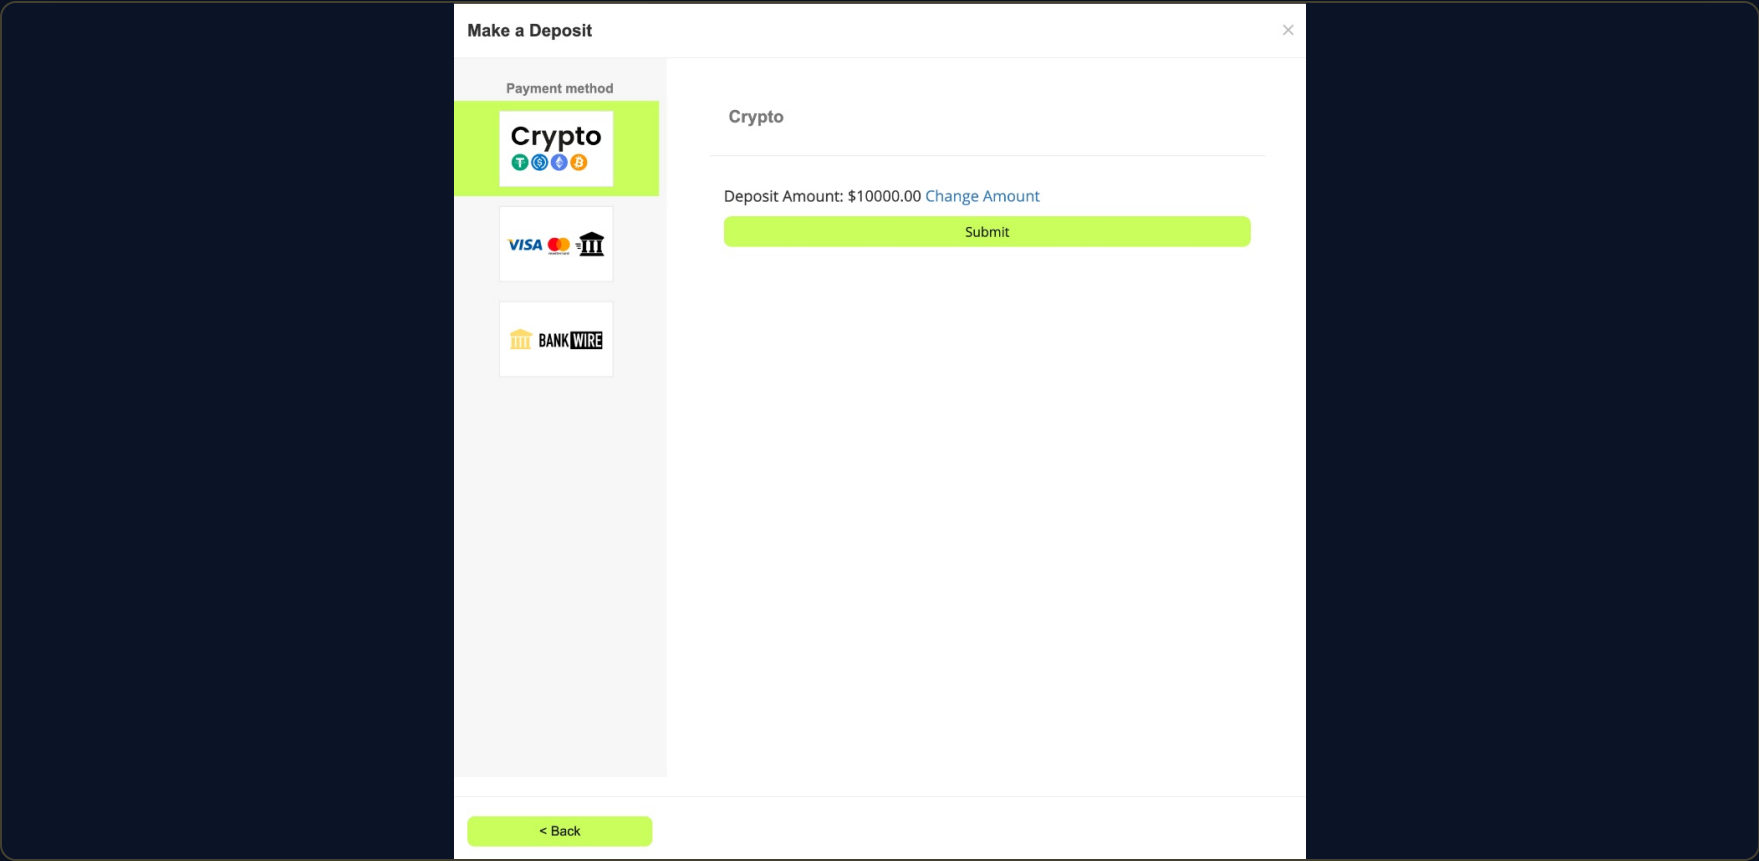

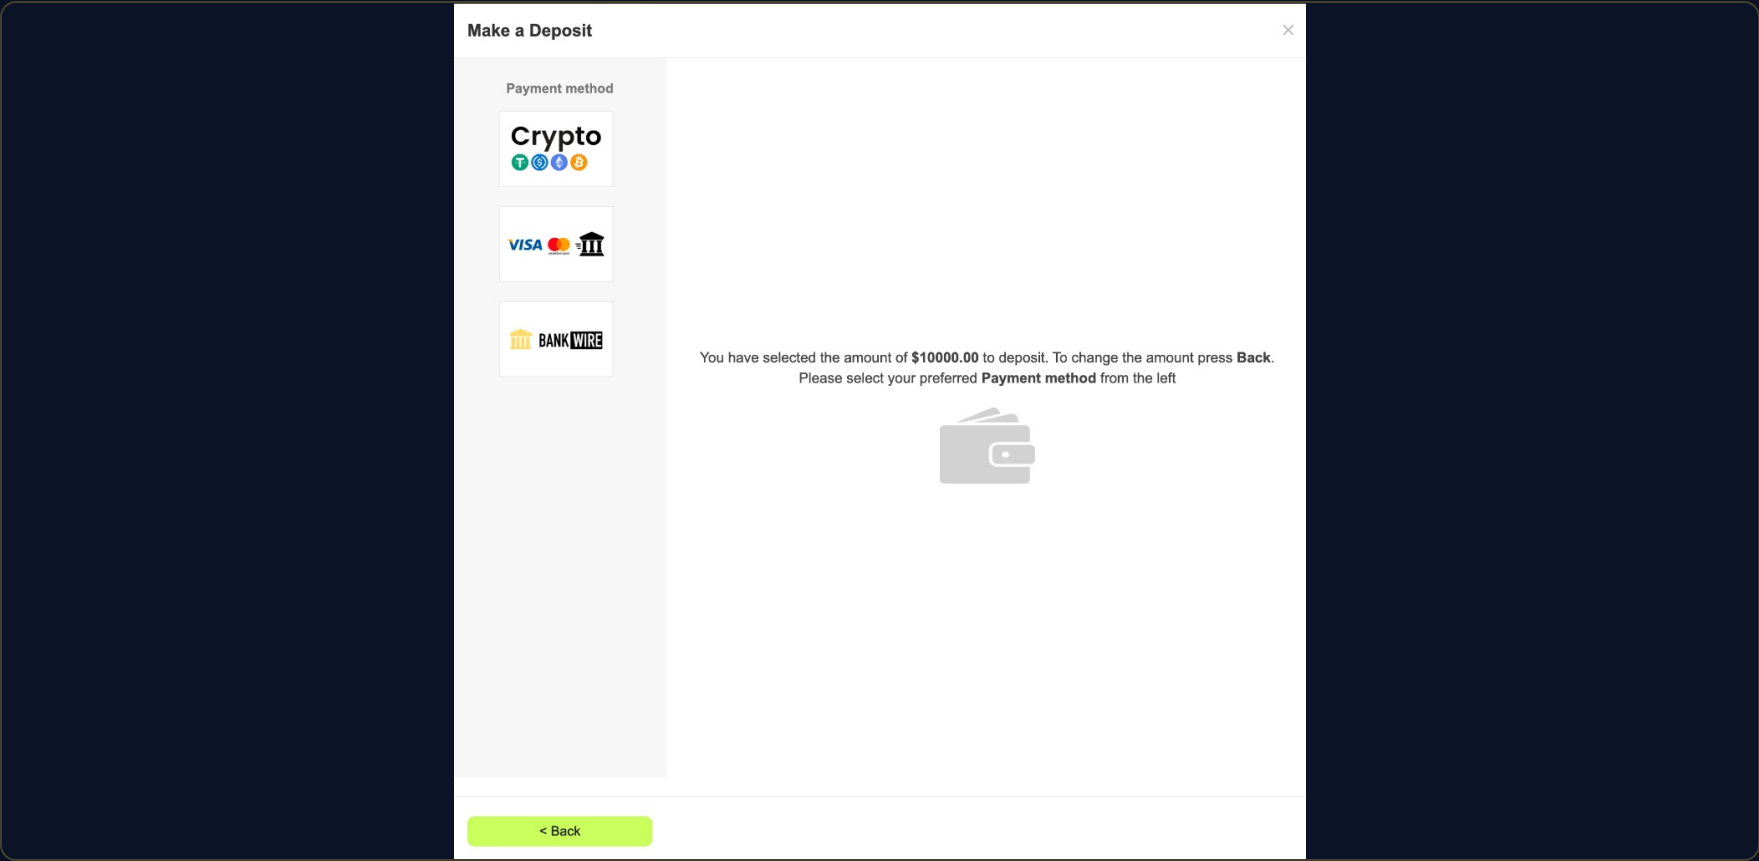

Next >

10

Choose Payment Method

On the payment method panel, your selected amount appears on the right. Choose your preferred funding option from the left — **Crypto** (recommended for speed), **Visa/Mastercard**, or **Bank Wire**. Once your method is highlighted, click **Submit** to generate your deposit instructions.

 **Tip:** Crypto deposits typically settle in 1–5 minutes. Card and bank wire can take 1–3 business days. If you need to adjust the amount, click **Change Amount** to go back without restarting.

11

Send Your Crypto

Pick your cryptocurrency from the list. For **USDT** and **USDC**, you must also choose the network — **BSC, BEP-20, Tron, TRC-20**, or **Ethereum, ERC-20**. Then copy the payment address (or scan the QR code) and send the exact amount shown from your wallet. The price quote refreshes every 15 minutes — click **Renew price** if it expires before you complete the transfer.

 Critical — Wrong network = lost funds

The network you select here MUST match the network you send from. If you choose BSC BEP-20 here but send USDT on Tron TRC-20 from your wallet, your funds will be permanently lost. TAG Markets and your wallet provider cannot recover them. Double-check the network on both sides before clicking Send in your wallet.

PHASE 4

ACTIVATE SONIC AI

Steps 12–13 · Connect to Sonic AI and start copy trading

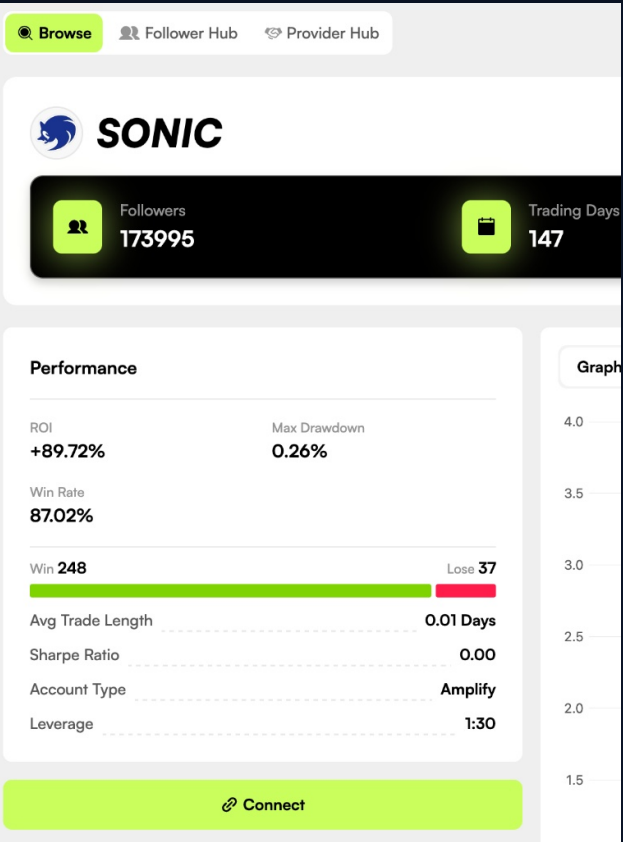

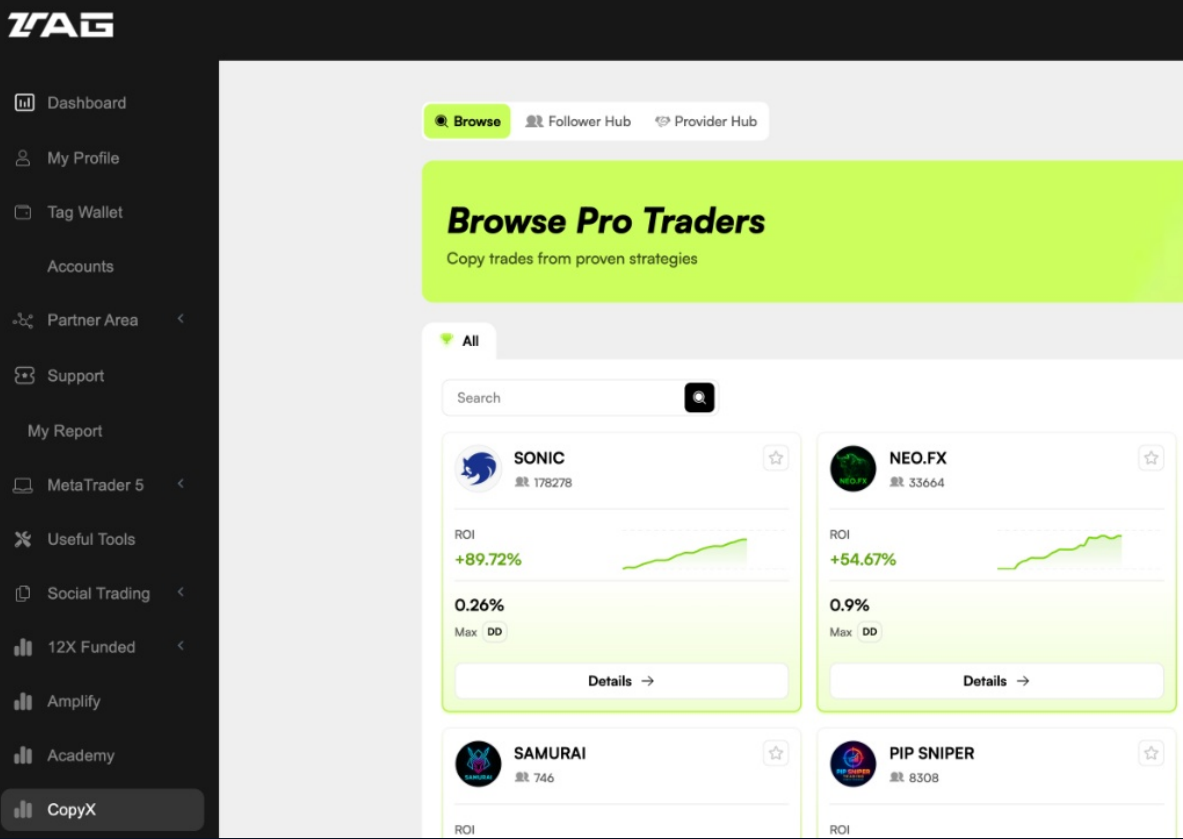

12

Open CopyX & Connect to Sonic

In your TAG Markets dashboard, click **CopyX** in the left sidebar to open the strategy browser. Find the **SONIC** card at the top of the Browse list, click **Details** → to review the full performance stats — ROI, win rate, drawdown, and trade history — then click **Connect** at the bottom of the strategy page to begin the copy setup.

Tip: Sonic is the #1 ranked strategy on CopyX with the largest follower base. Take a moment to review the live performance graph and trade history before connecting — this is the same data you'll see updating daily once you go live.

13

Set Investment & Activate 24X

In the **Copy Strategy** popup on CopyX, enter your **Investment** amount in USD (minimum \$10) — Account Type is locked to **Amplify**. Expand the Community Token dropdown, type **#d2tm**, and click Verify. The Token Burn Wallet Address auto-fills and the HASH/GU-ID field appears — type **00**, then click Submit. Tick both acknowledgment checkboxes and click Copy Now.

RECOMMENDED

24X Amplified

- \$10K → \$240K trading capital (double the standard)
- 5% drawdown limit
- Free to activate — uses the **#d2tm** Community Token, no payment, no personal code

Tip: Once Copy Now succeeds, your 24X amplified account is live and trades copy automatically. Everyone uses the same free values — **#d2tm** and **00**.

Prefer lower risk? Skip the Community Token field and click Copy Now for standard 12X amplification (10% drawdown limit).

PHASE 5

05

MANAGE YOUR LIVE ACCOUNT

Bonus material · Track, monitor, and watch your trades anywhere

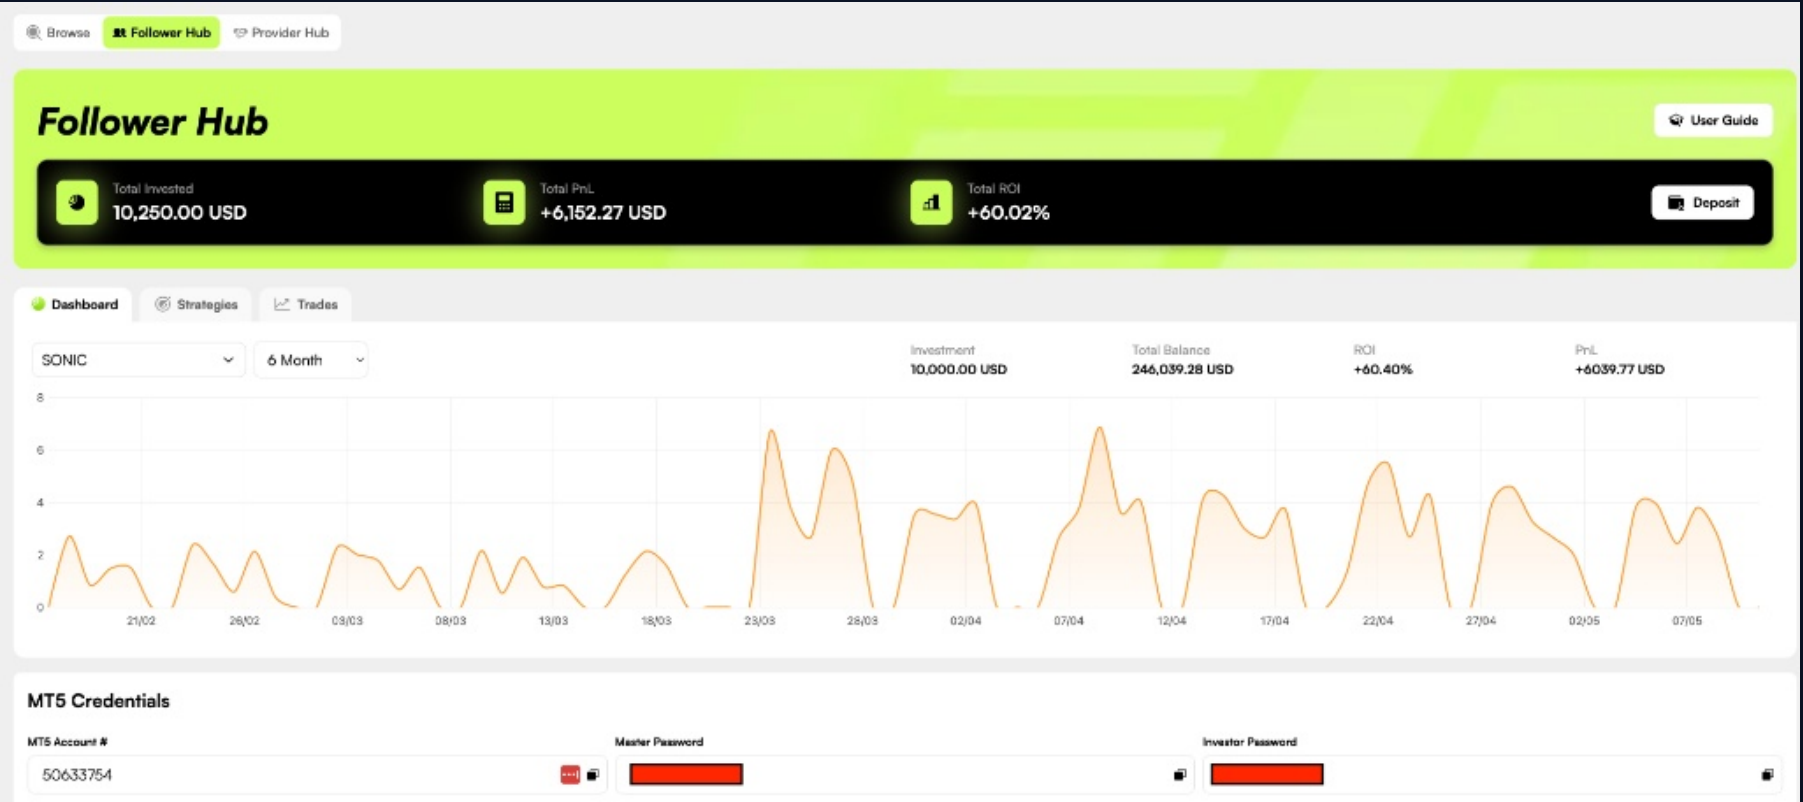

BONUS

Tour Your Follower Hub

After Copy Now, your home base is the **Follower Hub** inside CopyX. The top bar shows **Total Invested**, **Total PnL**, and **Total ROI** across all your strategies. The **Dashboard** tab tracks live performance day by day, with the green growth curve showing your amplified balance compared to your initial investment.

Tip: Scroll to the bottom of the Dashboard to find your **MT5 Credentials** — your MT5 Account #, Master Password, and Investor Password. You'll use these on the optional mobile slide later in this phase to watch your trades fire live on your phone.

BONUS

Track Trades & Withdraw Profits

The **Trades** tab shows every closed trade Sonic AI has executed for you — entry price, exit price, time in, time out, and PnL per trade. The **Strategies** tab is where you manage your money: click **Withdraw** anytime to pull profits or your initial deposit back to your TAG Wallet. You stay in full control.

Tip: When you withdraw, you can choose **Profits** (only the gains) or **Deposit** (part of your original capital). Profits are withdrawable from day 1. Your initial capital becomes liquid after the 30-day liquidity provider lock-in period required by TAG Markets.

BONUS · OPTIONAL

Install MT5 & Add Your Account

Want to check your trade history and balance from your phone? Open the App Store and install **MetaTrader 5** by MetaQuotes. Inside the app, tap **Settings** in the bottom navigation, then **New Account**. Search for **T.M. Financials Ltd** in the broker list and tap the result to begin sign-in.

Tip: This step is purely optional. Your trades, balance, and withdrawal controls all work fully on the web **Follower Hub** without ever installing the mobile app. MT5 mobile is for traders who like to check their closed trade history and updated balance on their phone throughout the day.

BONUS · OPTIONAL

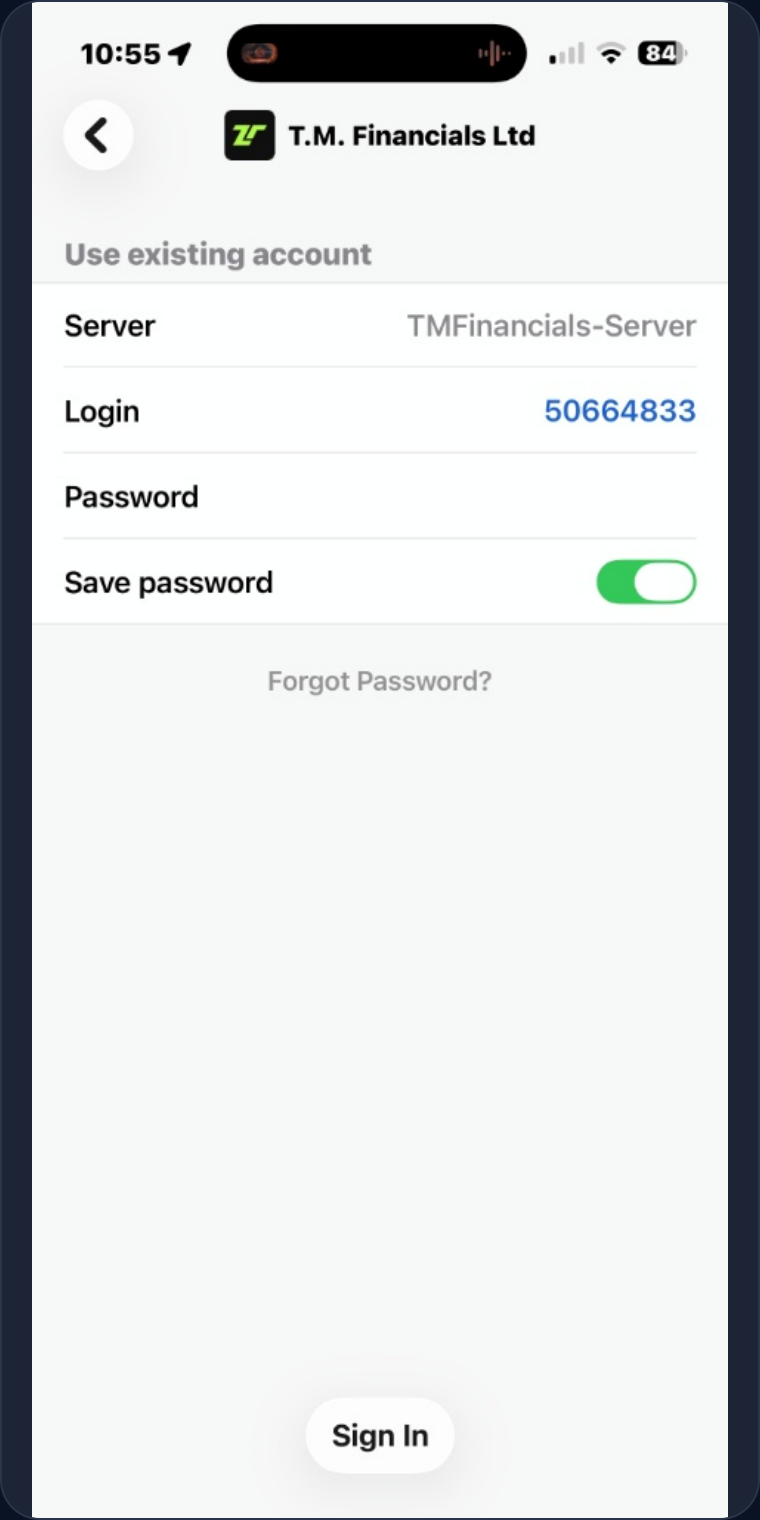

Sign In & See Your Account

On the sign-in screen, the **Server** field auto-fills as TMFinancials-Server. For **Login**, paste your MT5 Account # from the Follower Hub. For **Password**, paste your Investor Password. Tap **Sign In**. Open the **History** tab in the bottom navigation to see all your closed Sonic AI trades and your current amplified balance.

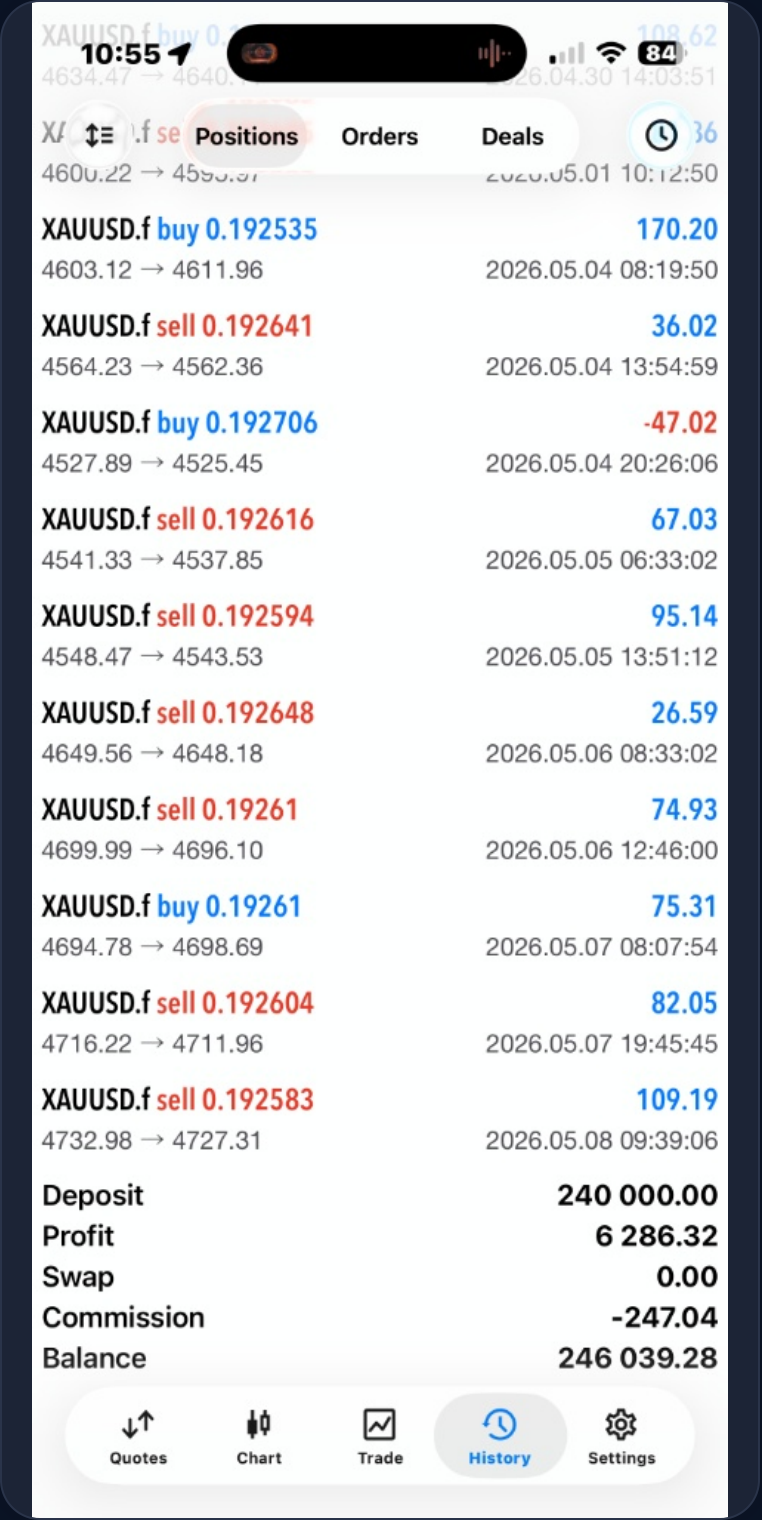

Tip: Either password works for signing in to view your account. We recommend the **Investor Password** as the safer default — it has no trading rights anywhere it's used, so even if your phone is lost or your credentials are exposed, no one can interfere with your Sonic AI copy trading.
